## Full Stack Developer

---

### Product Development | System Architecture | DevOps Engineering

Passionate Full Stack Developer focused on creating intuitive and responsive user experiences and scalable server-side solutions. Eager to contribute expertise and collaborate on innovative projects with a dedication to continuous learning and growth.

## WORK EXPERIENCE

---

**Publicity For Good** - Remote

02/2024 - PRESENT

### Full Stack Developer

Contributed to building a full software product from scratch in a startup environment, working closely with a team of developers throughout the development process. Played a key role in system optimization, scalability improvements, and ensuring the product met business and user requirements.

- Collaborated on the software development lifecycle from planning to deployment.
- Helped improve software performance by **35%** through code optimization.
- Worked with cross-functional teams to define and implement key product features.
- Reduced app downtime by **20%** by troubleshooting and resolving issues.
- Contributed to API development, improving integration speed by **15%**.
- Assisted in creating technical documentation, reducing onboarding time by **50%**.

**Magic Romania** - Bucharest

11/2023 - 02/2024

### Full Stack Developer

Drove the development and success of multiple web applications and landing pages, ensuring alignment with both user and business needs. Contributed to strategic planning and collaborated with developers, designers, and stakeholders to deliver impactful solutions.

- Led development of web apps and landing pages, cutting delivery time by **25%** through task prioritization and workflow automation.
- Integrated APIs, including Telegram bots, boosting user retention by **20%** through automated notifications and streamlined interactions.
- Implemented responsive design, increasing mobile engagement by **15%** through optimized layouts and mobile-first strategies.
- Optimized back-end, decreasing server response times by **18%** through query optimization and caching.

**Udemy**

09/2022 - 11/2023

### **Full Stack Developer**

Completed comprehensive full stack development courses, gaining a deep understanding of both front-end and back-end development. The learning process involved hands-on practice, problem-solving, and building fully functional web applications. Key takeaways included:

- Developed dynamic applications, enhancing functionality.
- Managed databases for efficient data handling.
- Implemented APIs for seamless front-end and back-end communication.

## **EDUCATION**

---

### **Universitatea “Spiru Haret” din Bucuresti - Bucharest**

Bachelor’s degree - **Management**, July 2023- Present

## **PROFESSIONAL SKILLS**

HTML, CSS, JavaScript, TypeScript, Vue.js , Vuex, Pinia, React.js, Next.js  
 Tailwind CSS, SCSS, Vite, Bootstrap, PHP, Laravel, Node.js, Express.js, Python,  
 Django, MySQL, MongoDB, PostgreSQL, Docker, Jenkins, Terraform, Kubernetes,  
 AWS, Vagrant, Linux, Git, Bash, Maven, ChatGPT integration, RESTful API’s,  
 Debugging, Code review OoJ, Communication Skills, Teamwork, Leadership,  
 Problem-Solving, Agile Methodologies, Artificial Intelligence

## **Licenses & certifications**

---

[Begin DevOps Career As an Absolute Beginner](#) - Udemy

[The Web Developer Bootcamp 2024](#) - Udemy

**Oracle Academy Database Design and MySQL Programming** - Oracle

## **LANGUAGE COMPETENCIES**

---

- English: Fluent (speaking, reading, writing)
- Romanian: Native
